CONSULTATION SERVICE

Our signature consultation is an essential and valuable part of the design process, designed to create a 1-on-1 personalized service that will allow your project to move forward seamlessly on your own terms.

Here is what the service includes:

1. Initial Walkthrough

This gives your designer the opportunity to see the space and discuss with you how you intend to utilize it.

This is the opportunity for you to share any inspirational images you may have with your designer.

Your designer will take photos of the space, discuss ideas, and if needed, may make on-site recommendations with what could be done to best utilize the space to meet your needs.

2. Priority List

Based on your budget and priorities, your designer will create a comprehensive list of the entire scope of the project work to be completed and projected design hours that will keep your project focused and on-track.

3. Design Hours & Package Proposal

An estimation of design hours required to complete your project as well as the package proposal will be provided so you will have the opportunity to review every aspect in detail and track progress once the design process begins.

PRICING

Pricing is based on a Monday through Friday 9:30am - 4pm schedule.
Additional fees may apply for consultations booked outside of these hours.
